"Summer to Inspire"

Week 5

Keeping Cool and Having a Splashing Good Time

Summer is flying by and it's hard to believe we have started our 2nd half of camp. Mother Nature really turned up the heat on us this week and as always we had the perfect activities planned to keep the campers having fun and loving this Inspirational Summer.

Monday was **DOUBLE TROUBLE DAY** and it was fun to see campers and staff twin with one another. On Tuesday, we celebrated **Purple Palooza**. Tuesday night boys 3/4 stayed for overnight fun, playing Capture the Flag, having a special Pasta Primavera dinner, making s'mores and watching The Incredibles.

Wednesday everyone had a ton of fun at our **LOST IN SPACE DAY!** Campers were transported to outer space for some Alien Spacehip Crafts, Light Saber Tag, Trouble with Tribble and other fun activities. 6/7/8 grades ventured for NYC pizza and on The Beast speedboat for an afternoon of fun.

Thursday was **FitnessDay**. Campers not only looked the part but had fun sweating to fitness challenges throughout the day like squats, crunches, push-ups, mountain climbers and more. This fun day was inspiring, promoting health and wellness among our campers. Also, 3/4 girls stayed for their second overnight of the summer. They had fun at a dance party, enjoying Barry's Pasta Primavera, making Sundaes, and even a visit from the Tooth Fairy.

On Friday campers imagined they were in Maui as they arrived to camp ready for some luaus and hula dancing all wearing Hawaiian clothing for **Hawaiian Shirt Day**. Campers had so much fun. 6/7/8/9th grades went rollerskating with their friends.

This week in Tribes, groups participated in some of the following activities: Bowling Bash, Discus Throw, Sac Race, Charades and more. This week's Tribal winners were the **Camdels!** Congratulations. Let the fun competitions continue next week.

Our Inspirational summer is flying by and we are soaking up every bit of fun we can while it lasts! Have a great weekend, see you all next week!

SPECIAL EVENTS

First, I want to thank all of the families who contributed to our food and hygiene drive last week. We were able to help many families in need. This week's Special Day was **LOST IN SPACE DAY**. All activities campers participated in had a space theme. Kiddie Kingdom campers created their own Name Rocket in Arts & Crafts, made Galaxy Dough in Mad Science (a fun spin on Play Dough) and competed in Pod Racing from Star Wars dodging asteroids while using bouncers. First and second grade campers made Astronaut Pudding in Cooking using ingredients that astronauts would use in space, they created an Alien Spaceship Craft and played with Straw Rockets in STEM. Third through fifth grade campers trained to be Jedis, built prototype rockets out of random materials and learned to Harness the Force using light sabers and rings. Lost in Space Day was definitely out of this world! Next week's Special Day is **Medieval Day!**

LITs/CITs Inspiring Others

We have soared into Week 5 without even realizing it! The LITs and CITs are busy truly making this a summer to inspire. Although two large groups, they have come together as a cohesive unit that has welcomed many new campers since week 1. Each of the LITs/CITs are busy working in their assigned groups and specialty areas and too often the campers are sad to see them leave the group and return to me. LITs have worked closely at RISE, helping to organize the community thrift store and furniture shop for their community service. Thanks to your generous donations, we were even able to share some of the food collected from Giving Thanks in July with them. The CITs are putting the final touches on our Adults Night Out fundraiser on August 12th, which we hope to see you all participate in! As you can see, we have been very busy, but no worries we have had much fun and many laughs. The group shines during Tribal events and can challenge anyone at giant Jenga & Connect Four. We are more than half way through camp, but we still have plenty of time to inspire!

~Christina, LIT/CIT Division Leader

Kiddie Kingdom's Having a Blast

This week Kiddie Kingdom was out of this world and ready for "Lost in Space Day". They enjoyed activities like Mini Jedi Training, Galaxy dough and the all-time favorite, Pod Racing. The other Division Leader favorite was the Scavenger Hunt around the camp. You could hear the laughter all throughout Eagle's Landing. Campers have also been dancing and practicing for their big show *I feel better when I'm dancin'*. Watch out Broadway, the campers of Kiddie Kingdom will be on the big stage before you know it. They cannot wait to perform for their family and friends, August 11th. We look forward to the rest of the summer spending time with our amazing campers of Kiddie Kingdom!

New Coding Elective Challenging Young Minds

This summer, Eagle's Landing offers a new computers coding elective. Through a partnership with KidsCoders, campers in grades 3-8 receive an introduction to coding and robotics with intuitive game-based lessons. Campers start with algebra games as a prerequisite to robots. The mathematics concepts are key in learning how to control the robots. After completing the introductory levels, campers learn to code by finishing sequences and conditionals before developing object-oriented scripts. Throughout these tasks, the campers are controlling one of 15 robots to follow a track, spin and fly through the air!

KidCoders likes to inspire girls in particular since women represent only 30% of programmers worldwide. Coding is hard but it can be a lot of fun, and we've seen kids demonstrate real potential!

~Fern, KidsCoders Coding Instructor

ART TOO OUT OF THIS WORLD

This week Art Too was Out of This World! From knitting our fingers to braiding bangle bracelets, and recycling in between. Campers were also making magnets from bottle caps and bow ties and necklaces from playing cards; all the campers were up for the challenge! We fashioned bracelets out of buttons and explored the infamous seed beads. Things heated up with hot glue rings, when our campers became designers from Eagles Landing Jewelers! Kiddie Kingdom crafted rocket ships that carried us all into space, who knows what projects await when we get back to earth next week!

~Elaine, Art Too, Instructor

FANTASTIC FITNESS

We are staying fit and cool this summer! Campers are running through fitness relays and obstacles with water balloons, buckets and sponge-ball challenges. Somehow the counselors end up getting the most soaked! We are keeping "chill" during Yoga, working on strength and flexibility with flow. A camp favorite is the "do-nothing" pose, when we lay on our backs with our eyes closed and relax every muscle from toes to head. In Dance Fitness, campers are sharing awesome ideas for sports-inspired dance moves. We put together fun heart-pumping routines to "Uptown Funk", "Nobody Can Drag Me Down" and "I Like to Move It!" Campers in Zumba took turns leading warm-up, then we rocked a fast-paced combat-style workout with jabs, hooks and flying knees! Ninja Warrior boys are muscling through more obstacle courses and practicing good sportsmanship by cheering each other to the finish line. The boys also got to show off their super Ninja strength by competing in a monkey bar hang-time challenge!

In a World of Pure Imagination...

It is hard to believe that camp is already more than half over! We have been doing so many exciting activities in Creative Dramatics, especially learning to use our bodies to communicate. We learned about pantomiming as we “walked through” many different surfaces like honey and lava, we let people know what emotions we were feeling without saying a word and we played charades like pros! As we continue through the last few weeks, we are going to dive into storytelling as a group, using our voices, bodies and imagination to create literary and dramatic masterpieces!

~Jenn, Creative Dramatics Coordinator

BASKETBALL

This week at camp, we learned how to be professional dribblers. Kiddie Kingdom and first grade dominated Red Light, Green Light and Duck Duck Basketball. Third and fourth had fun with Dribble Tag, while Upper camp learned different ball handling tricks to make them as good or even better than Lebron. The pros better watch out because the ELDC Dribblers are coming for their jobs!

Blazin' B6C

It was another great week for B6C! With a lot of cool things happening, all of the campers had a blast. Jack Stoeckel, Alex Aizley, Andrew Kenny and David Dutka all loved the trip to Hershey Park at either the amusement park itself or the baseball games and fancy dinners! Cian Nolan really had fun at the Computers elective, playing Roblox. Daniel Newton had fun in all of his electives and even more fun in Ga-Ga. Joseph Capadanno had a ton of fun with all his fellow campers on this week's trip to the Beast Speedboat. Brett Dutka loved playing Soccer and playing charades with his friends for Tribes. Will Gammon soaked up some rays while swimming in the Pool. Michael Lopes did a great job as goalie in soccer and also crushed it playing Ga-Ga. B6C knows how to have a good time and can't wait for the rest of summer.

Hershey Trip Highlights

This week, upper campers had the opportunity to go on a 3-day Hershey Park Trip with camp and we have a blast! Leaving bright and early Tuesday morning did nothing to dampen the spirits of the 40 campers and 7 staff members who were headed out on the road.

Our first stop in Pennsylvania was Adventure Sports where there was Go-Karting, Mini Golfing and Bumper Boating galore! After lunch we all got together to play an immersive game of outdoor laser tag on a playing field that included some WWII style blockades and even an old-fashioned plane! The Red Team managed to sneak out a victory in that game. Next up on the itinerary was the Turkey Hill Experience – did you know that Turkey Hill makes over 100 flavors of Ice Cream?! Walking around the interactive exhibit, we were able to learn how ice cream is made and even try some of the most popular flavors. After that we headed into the lab to try mixing our own flavors of ice cream! There's a whole lot that goes into it, from the flavor of the ice cream itself to the various mix-ins and whether or not you want to add a swirl! We finished the evening watching the Harrisburg Senators play the New Hampshire Fishercats. When we got there we even discovered it was a double-header so we got a little extra baseball!

Day 2 started with a journey to Roundtop Mountain Resort. This awesome location had climbing and zip-lining challenges, a ropes-style obstacle course and a giant maze! It also had the Ogo Balls, which we know a lot of campers were excited about before the trip even started – they were even cooler than we could have imagined! Way up at the top of the hill we got into these giant inflatable balls where the inner ball was filled with water so as we rolled down the hill, we stayed (or slid around) in place in the water while the ball rolled under us. After tiring ourselves out there we spent a lovely evening at the Dutch Apple Dinner Theatre watching a production of Mary Poppins – “Supercalifragilisticexpialidocious” and “Step in Time” really never get old!

For the final day of our adventure we spent the whole day in Hershey Park! We traveled in smaller groups to make sure that everyone got to do as much as possible. We were able to experience the heart-stopping roller coasters such as Great Bear and The Comet, enjoy the wave pool and water slides on the board walk and even visited some awesome animals in ZooAmerica! At the end of the experience we made sure to hit up the Hershey Park Experience to learn how chocolate is made (and get a free sample) and the largest Hershey store in the world!

With a quick stop for dinner at Chili's, we were on our way back to camp with our happy but tired crew; although the chocolate may have helped keep them up. We had such a blast on this trip and we can't wait to start planning the three-day trip for next summer!

B2C Is Having A Rockin' Summer

Some say it went by too fast, but we can tell that B2C has enjoyed every second of these awesome first five weeks of camp. With great activities and this awesome group, B2C knows we are having a great time during camp. Chris Cohen was a great team leader during the group exercise in Ropes. Ryan Baron was the best Jedi warrior during Fantastic Fun. Nate Giglio was a pro chef during Baking as he whipped up his pastry to perfection. Elliot Genge was so fast during Soccer as he couldn't stop scoring goals. Phillip Neri was a Picasso Jr. during Arts & Crafts tracing his stars perfectly. Ryan Lin was a dodging expert in Ga-Ga as it seemed impossible to get him out. Max Salzberg's SunButter & Sushi roll was out of this world as he followed directions and quickly turned his ingredients into a masterpiece. Jack Reznik made a great spaceship in Lost in Space day. Ian Chu looked a fish in the ocean as he raced down the Pool, completing lap after lap with great speed. Maxwell Taplits had a great time during the special "Lost in Space" day on Wednesday, as he took place in the activities with extreme joy. Luke Taras looked like a pro during Tennis as he picked up his racket and didn't miss a single shot. Even though 5 weeks of summer are over, it is safe to say that B2C will have an awesome last 3 weeks of summer at Eagle's Landing Day Camp!!!
