"Summer of FUN-nominal"

Week 1

The Beginning of a FUN-nominal Summer!

The summer is off to a FUN-nominal start at Eagle's Landing Day Camp! Camp was buzzing with excitement as campers arrived on Monday, ready to kick off another great summer of exciting activities. We are thrilled to have so many returning campers and to welcome all of the new faces this year! It was awesome to see campers reunited with their friends and how easy it was for our new friends to join in with those groups. There was so much for our campers to do and see, it truly made for a great start to an inspirational summer.

This week was the beginning of our Tribal competitions for the summer and new campers found out what tribes they are on! All four tribes, the blue Eldings, the yellow Ladings, the green Delcans and the red Camdels, showed off their tribal pride. The chiefs who will lead the tribes are Marley Cohen, Gabi Benzilio, Matt Delacruz, and Nala Thomas. Each week there will be a new tribal winner. This week, the **CAMDELS** were victorious. Congratulations to all Camdel tribe members! Campers will continue to compete each week in tribal competitions.

Tattoo Tuesday was such a blast for everyone! Campers could be spotted with all sorts of tattoos on them. Ship to Shore Day and Tin Foil Day were also days filled with excitement! On Thursday, everyone smiled bright for picture day since everyone has been having so much fun.

The first week of camp sure went by fast! Everyone had a *FUN-nominal* time at their favorite place! We look forward to seeing campers again next week and want to wish our Eagle's Landing families a Happy 4th of July!

SPECIAL EVENTS

This week's Special Day was Ship to Shore Day! Pirate Day was a calendar day for too long and this summer we decided to base a whole Special Day around pirates and mermaids! Kiddie Kingdom went on a treasure hunt based on one of their favorite Disney Jr. shows, *Jake and the Neverland Pirates*, and they made their very own parrot friend in Arts and Crafts. First and second graders had to navigate their way around a Crocodile Cove in teams, Hook the Treasure using only their hook hand, and made a tasty treat of Under the Sea Graham Crackers in Cooking. Third through fifth graders created their name using Nautical Flag codes in Arts and Crafts, played Prison Ball as Dueling Pirate Ships and worked on their team building skills in a game called Shiver Me Timbers. Ship to Shore Day was the perfect way to start off the Summer of FUN-nominal! Next week's Special Day is Action America Day where campers should look for a surprise in the sky!

COMPUTERS!

We are off to a great start this week for computers. Younger campers had fun with tablets full of apps that they love. Older campers have access to laptops. There are a variety of games that they can use such as Minecraft, Roblox, Angry Birds, and several others. In upcoming weeks, the older campers will participate in creating podcasts and videos. A lot of fun is in store for Computers!

SPORTS

Another year of fun in the sun at Sports! A lot of campers have taken an interest in hockey, so we decided to make the Sports elective super great by including hockey games. Batting cages is another elective where campers get to have batting practice. They are getting amazing hits as the ball is pitched to them at fast speed. We have some talented baseball players this year. The last favorite of the week has been T-ball. Kiddie Kingdom, 1st, and 2nd grade groups are having fun throwing overhand as they play the Clean the Yard game. (Maybe it can help at home too. ☺) The first week has been a lot of fun, and more is to come in the next weeks.

Mad Science

Mad Science started the first week of camp right! We got messy and made slime! There is a reason why the camp song says, "We make goo and slime," because the campers love it. From Kiddie Kingdom to our eighth graders, slime was an activity they looked forward to. Each group entered the Science bunk with excitement and cheers. We learned that slime takes three ingredients: water, borax and glue. As the three ingredients mix together it gets harder and harder to mix, but each of our campers were dedicated. In the end, we made colorful and gooey slime that campers stretched and even made spiders and snakes out of. Camper creativity and enthusiasm was *FUN-nominal*! Of course, we cannot forget the ice cream that we made in electives this week. Campers were active volunteers and attentive listeners as they filled the ice cream ball with the ingredients. Each camper can tell you that ice cream is a simple recipe but a lot of hard work. We shook and passed the ice cream ball for a while, helping the ice and salt reaction to freeze the ice cream. The best part was enjoying our tasty creation! We can't wait for next week's exciting Mad Science activities!

- Olga, Mad Science Instructor

B6B is Soaring High!

The B6B boys started off the first week of camp in a great way. All campers were extremely happy for activities and, of course, making new friends that will last all summer long. Oskar Bayazitov enjoyed the first week by spending his time at Ropes and Sports. Meanwhile, Jason Paltenstein had a blast while competing against his fellow campers in Basketball. JC Ribsam was more than ready for the new obstacle course at Ropes. Steven Koshy enjoyed being in the sun while participating in Soccer and Ropes. Sebastian Tutela also had a great time soaring high on the Ropes course. Robert Progebin had a great time at Jenkinson's Boardwalk & Beach. The B6B boys ended the first week with a bang!

B2B is Having Fun in the Sun

Well, it's time for camp again and when B2B gets together, we only have the best of times. It may only be the first week of camp, but the boys know that we are the best group around! Everyone had fun at their activities this week. Aiden Hansen was a great team leader during the group exercise in Ropes. Luke Ruoff won the final round of Capture the Flag, making the counselors lose overall. Adam Kamel was a pro-chef during Cooking as he whipped up his scrumptious sun butter-sushi rolls. Noah Austein was showing off his skills in Ga-Ga, even getting his counselors out! Roman Tutela should be known as the next Picasso because during Arts and Crafts he made the project this week. Kyle Cirillo-Spalding was a wood working expert as he drilled holes out of his project in Woodshop. Sam Kaplan's soccer skills were out of this world as he showed off some impressive dribbling skills. Zach Oliver loved making slime and alien creations in Mad Science. Michael Englert looked like a fish in the pool as he raced down the lane, completing lap after lap with great speed. Even though this is only the first week of camp, it is safe to say that B2B will have an awesome summer at Eagle's Landing Day Camp!

THE B4C STATE FARMERS

The B4C State Farmers had an amazing first week at Eagle's Landing Day Camp! Sean Aronson and Josh Goldenfarb had a blast at Mad Science, making sticky and stretchy slime. Ryan Austein and Jack Shaunnessey showed their skills on the court by making more shots than anyone else during Basketball. Matthew Bershad and Dean Kamel both were great assets to their teams during Tribes by scoring lots of points. Alex Naumov and Evan Taistra helped lead the group during the Division Leader Time scavenger hunt by thinking of interesting and creative objects around camp that we could take back to show Justin. James Tomasini and Benjamin Schneeweis were the kings of Ga-Ga; they were both final campers in every game and they even beat the counselors. The B4C State Farmers rocked it during their first week of camp, and we cannot wait to see what the upcoming weeks have to offer!
