5 and 6 Division's Summer of Fun

The summer of 2020 is off to a great start here at Eagle's Landing. We had some awesome special days over the first few weeks. We participated in great wet games as part of Water Wipeout Day. Around the World Day was an opportunity for our campers to experience activities inspired by different locations. For Holidays in July Day, we had the chance to enjoy some of the holidays that we don't usually get an opportunity to celebrate at camp.

The boys had a blast during their Stay Late. They played GaGa, Prison Ball, Kickball, and Basketball. Everyone enjoyed the extra Pool time as well. The French Bread Pizza was a hit with all of the campers. Everyone looked forward to the opportunity to relax, eat s'mores, and play cards at the end of the night.

The girls had an awesome Stay Late as well. They spent the beginning of the night in the Pool. After some delicious pizza, they went to the fields for a special event. Their counselors spent time preparing an amazing obstacle course. Campers had a blast navigating through streamers, shaving cream, hula hoops, and silly string! They were supper tired by the time they got to the campfire for some s'mores.

If the first few weeks are any indication, this is going to be an amazing summer. We can't wait to see what else is in store.

Spread half of the potato mixture on one rectangle to within 1/4- inch of long edges. Starting at one long side, tightly roll up dough; pinch seams to seal. Using a serrated knife, cut roll into 14 slices. Place slices, cut side up, on cookie sheets. Repeat with remaining dough and filling.

Nature

Campers had an exciting week 4 at ELDC! In Nature, 1st grade made S'mores and 2nd grade made Frito Pizza Nachos in the solar powered pizza box ovens. 3rd and 4th graders learned all about "Cold Weather Living" and about its environment and wildlife. 5th and 6th graders explored the world of fossils, a little bit of Archaeology, and created their own molds of different types of animal tracks and prints. 7th and 8th graders discussed and illustrated the "7 Basic Needs and Gilligan's Island" along with discussing the essentials needed in the wild and on a deserted island. 7th grade boys learned 3 different methods of "Fire Building," along with igniting that fire by using the sun and magnifying glass, safety in campfire management and different types of igniters to use in "Outdoor Survival Skills." All of the campers are so excited, engaged, and full of life with a sense of adventure. Week 5 will be just as exciting when campers start to assemble and create their hiking sticks, create and decorate tree discs, and learn about the rock cycle.

On a final note, all 3 of our female goats have names: Marshmallow, Cocoa, and Simone or S'mores (as the little ones like to call the 3rd goat).
