Week 5

WORKING TOGETHER DURING TEAMWORK WEEK!

This summer is going so fast! It is hard to believe that we have just completed Week 5. As they say, time flies when you're having fun!

Campers kicked off the week with **SCHOOL SPIRIT** Day. Rutgers University, Harvard University, New York University, Michigan State University, University of Tennessee, University of Florida, Hammarskjold Middle School, Judd Elementary School, and many many others were all represented as we walked through camp. School Pride was evident everywhere we looked!

Team Tuesday was awesome! We saw campers and staff dressed in their favorite teams' shirts. Football, baseball, hockey and basketball t-shirts/jerseys were seen everywhere we went. We certainly love our sports here at ELDC! Then, Boys in grades 3/4 got to enjoy a few extra sports during their Stay Late.

Wednesday's Special Day was **OLYMPICS DAY**. All around camp, we saw campers participating in activities that closely resembled what we see in the Olympic Games.

Thursday was **CHOOSE KIND DAY!** We talked about ways to be kind to other people. It is important to emphasize kindness to all! We also had our Girls in grades 3 and 4 Stay Late - they certainly had a blast spending some extra hours at camp.

This week in **TRIBES**, we played Beach Ball Blast! The winner this week was the **Delcans!** Congratulations! The competition continues for Week Six!

Counselors vs. Campers has been rescheduled for next Friday! We look forward to some fierce competitions.

Next week is Hollywood Week - can't wait for all the fun!

LIT Volunteer Project

Help us raise money for a family in need!

Pie a Division Leader in the FACE!

We are collecting any change - Big or Small. Put your change in the box marked with a Division Leader's face of YOUR choice. The DL's box that collects the most money will get Pied in the Face!

Marvelous Mad Science

We explored our mystical science world on a LARGE scale. Campers started the week by mixing everyday materials like hydrogen peroxide and yeast to create a toothpaste. It foamed so big; we said that it is fit for an elephant! ELDC's Elephant Toothpaste is a foamy eruption that uses yeast and warm water as a catalyst in a reaction that brings smiles to the campers' faces and keeps their pearly whites clean. We also got to dig deep down into our Earth's core when we learned about the many layers of our exciting planet. Campers were each able to make their own Earth out of clay starting from the inside out. We learned and discovered fun facts about our Earth's inner core, outer core, mantle, and crust. A clean slice right down the middle exposed the different layers and brought new meaning to their global creations! Coming up next week, temperatures are rising as we kick off into our thermal energy week with our exciting Solar Bag experiment. Can't wait to see what new discoveries we have in store!

~ Kayla, Mad Science Instructor
